

EDM Supplier Easymetal Launches Redesigned Website

The Austrian-based EDM specialist **Easymetal Prozesstechnik GmbH** has relaunched its website with a new look and new features. According to company director Stefan Freudenthaller, the new design of Easymetal's on-line manifestation has the aim of making navigation easier and improving site visitors' access to information relevant to their needs.

Visitors to Easymetal on-line now are able to read about events in-

volving the company, such as fairs and trade shows. Also, Easymetal has created separate sections of the website for industrial and household customers. Both sections supply users with a wealth of useful information, includ-

ing product-line overviews and data sheets for specific products, details about centralized and decentralized solutions for households, and manuals for optimizing the practical use of a variety of devices.

alized water treatment and the production of service water. The new website is at www.easymetal.com.
